WEDDING FILMS

Hey there!

We love to keep our work as organic and natural as possible, aiming to capture your day just as you remember it — and all the little moments you might have missed.

With eight years of experience shooting weddings, think of us as your new friends (who happen to be holding a camera) here to document your day in a relaxed and fun way.

We hope we sound like the right fit for you, and we can't wait to chat about your wedding!

Olivia x

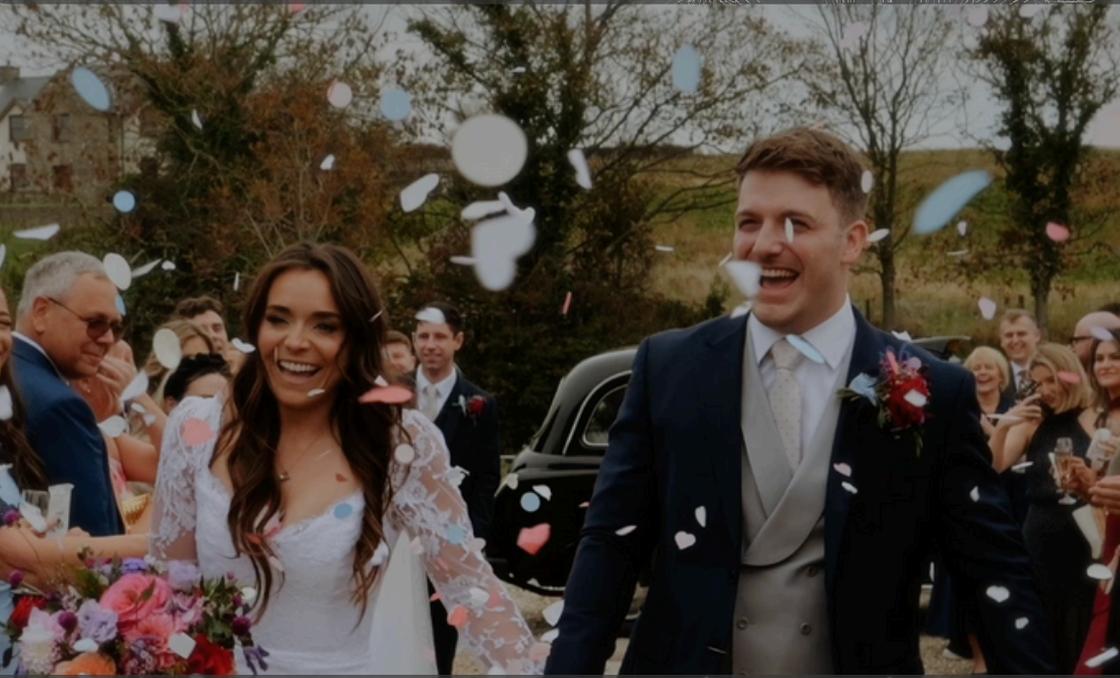

"We booked Olivia Made This to capture our wedding video after being recommended to her by friends and it was the best decision we could have made! We were already obsessed with her videos and then when you get to meet her you just fall in love with her and her work even more! Olivia's videography was exactly what we were looking for, capturing our wedding day unfold candidly but not to miss the most special moments. We were so over the moon with our wedding videos she made, they truly took us back to the best day of our lives and everyone we have shared them with have said the same thing. Olivia is the bubbliest, fun and sweetest person to have at your wedding, not just as a supplier but what felt like a friend too! We couldn't recommend Olivia Made This enough!"

Booking Process and payment info

The online booking process is all done through a client portal where you'll receive an invoice and contract. The deposit is 20% of the package amount and the remaining balance is settled a month before the wedding. You'll also receive a wedding day questionnaire and an email to arrange a video call one month before.
